**ARE YOU STILL PAYING MORE THAN 10c PER CALL?**

Let us show you how to save \$\$\$ on your phone bill

Pay only 10c for local & STD calls

**VOIP SETUPS - \$99**

Includes usb phone, software & onsite setup

Try this exercise to see how much you'll save: Count the number of local & STD phone calls on your last bill and multiply them by 10c. Compare that to what you actually paid. Interested? Let us help you save.

### What is VOIP?

VOIP stands for Voice Over Internet Protocol. Basically, using VOIP allows you to make calls using your existing Broadband internet connection to regular telephones at a greatly reduced cost.
